Our File 582-555 Israel

Dear Sirs:

We have received your letter of December 9, 1971
in which you report the issuance of an action by the Registrar
in the subject patent application.

Your instructions are not particularly clear in
respect as to how the specification and drawing are to be
corrected. For example, the end of the specification in-
dicates signature should be affixed thereto. Whose signa-
ture? Further the drawing has a notation that it should be
corrected in accordance with Regulation 21(c). We have no
way of knowing what such regulation provides and accordingly
what information is required.

Please advise us as to precisely what is required
to be done in connection with this so we may have the necessary
corrections made and return the documents to you.

Very truly yours,

George J. Brandt, Jr.
